[A Critical Introduction to Sport Psychology](#) Aidan Moran, John Toner, 2017-02-24 The new third edition of *A Critical Introduction to Sport Psychology* is the only textbook in the field that provides a detailed overview of key theories, concepts and findings within the discipline of sport psychology, as well as a critical perspective that examines and challenges these core foundations. **Not My Problem** Ciara Smyth, 2021-06-03 Winner of the Waterstones Children's Book Prize for Older Readers Winner of the Laugh Out Loud Book Award Shortlisted for the Children's Book Ireland Award, Irish Books Award and the Polari Prize Nominated for the Carnegie Medal When Aideen agrees to help ambitious class swot Maebh Kowalska deal with her crazy workload, she doesn't expect to end up reluctantly pushing Maebh down the stairs. With this, Aideen becomes the school 'fixer': any problem a student has, Aideen will sort it out, from stealing confiscated mobiles to breaking into parties. All she asks for is a favour in return. But Aideen's own life is a mess - her mam's drinking again, her BFF Holly is avoiding her and she's skipping school. Spending more time with the uptight (but annoyingly cute) Maebh and chatterbox Kavi, Aideen starts to wonder: can every problem be solved?

*Pond Conservation in Europe* Beat Oertli, Régis Céréghino, Jeremy Biggs, Steven Declerck, Andrew P. Hull, Maria Rosa Miracle, 2010-09-24 Ponds are an exceptional freshwater resource around the world and represent thirty percent of the global surface area of standing water. Furthermore, the millions of ponds which exist exhibit a particularly high biodiversity and have a high potential for ecosystem functions and services. Despite these impressive features, ponds face many threats from a variety of human activities and receive little or no protection under European and national legislation. Consequently,

there is an urgent need to protect, consolidate and increase the pond resource in Europe. In order to achieve these objectives, the European Pond Conservation Network (EPCN) was launched 2004 in Geneva. Its aim is to promote the awareness, understanding and conservation of these small water bodies in the European landscape. This volume of “Developments in Hydrobiology” presents a selection of 31 papers presented during EPCN conferences held in 2006 in France (Toulouse) and in 2008 in Spain (Valencia). They represent a diverse collection of themes from across the continent and North Africa and present new and original insights into topics as wide ranging as pond biodiversity; human disturbance; landscape ecology; ecological assessment and monitoring; practical management measures; ecological restoration; hydrology and climate change; invasive species and threatened species.

The Rolling Stone Chris Urch,2015-05-21 One day you're you. The next you're - I can't even say the word. Dembe and Sam have been seeing each other for a while. They should be wondering where this is going and when to introduce each other to their families. But they're gay and this is Uganda. The consequences of their relationship being discovered will be violent and explosive. Especially for Dembe, whose brother goes into the pulpit each week to denounce the evils of one man

loving another. A Bruntwood Prize for Playwriting winner in 2013, *The Rolling Stone* received its world premiere at the Royal Exchange, Manchester, on 21 April 2015.

Cinematic Cold War Tony Shaw, Denise Jeanne Youngblood, 2010 The first book-length survey of cinema's vital role in the Cold War cultural combat between the U.S. and the USSR. Focuses on 10 films--five American and five Soviet, both iconic and lesser-known works--showing that cinema provided a crucial outlet for the global debate between democratic and communist ideologies.

The Hard Problem Tom Stoppard, 2015-02-12 Above all don't use the word good as though it meant something in evolutionary science. Hilary, a young psychology researcher at a brain-science institute, is nursing a private sorrow and a troubling question at work, where psychology and biology meet. If there is nothing but matter, what is consciousness? This is 'the hard problem' which puts Hilary at odds with her colleagues who include her first mentor Spike, her boss Leo and the billionaire founder of the institute, Jerry. Is the day coming when the computer and the fMRI scanner will answer all the questions psychology can ask? Meanwhile Hilary needs a miracle, and she is prepared to pray for one. *The Hard Problem* by Tom Stoppard premieres at the National Theatre, London, in January 2015.

*The Falling in Love Montage* Ciara Smyth, 2020-06-09 Two girls embark on a summer of montage-worthy dates (with a few strings attached) in this hilarious and heartfelt lesbian rom-com that's perfect for fans of Becky Albertalli and Jenny Han. Seventeen-year-old cynic Saoirse Clarke isn't looking for a relationship. But when she meets mischievous Ruby, that rule goes right out the window. Sort of. Because Ruby has a loophole in mind: a summer of all the best cliché movie montage dates, with a definite ending come fall—no broken hearts, no messy breakup. It would be the perfect plan, if they weren't forgetting one thing about the *Falling in Love Montage*: when it's over, the characters have fallen in love...for real. Ciara Smyth's debut is a delightful, multilayered YA rom-com that will make you laugh, cry, and absolutely fall in love.

*Migrating Alone* Jyothi Kanics, Daniel Senovilla Hernández, Kristina Touzenis, Unesco, 2010-01-01 The essays that make up this book examine the question of child migration from legal, sociological and anthropological angles, examining the situation in both countries of origin and receiving countries.--Publisher's description.

The 1951 Convention Relating to the Status of Refugees and its 1967 Protocol , 2024-01-10 The Convention Relating to the Status of Refugees adopted on 28 July 1951 in Geneva continues to provide the most comprehensive codification of the rights of refugees yet attempted. Consolidating previous international instruments relating to refugees, the 1951 Convention with its 1967 Protocol marks a cornerstone in the development of international refugee law. At present, there are 149 States Parties to one or both of these instruments, expressing a worldwide consensus on the definition of the term refugee and the fundamental rights to be granted to refugees. These facts demonstrate and underline the extraordinary significance of these instruments as the indispensable legal basis of international refugee law. This Commentary provides for a systematic and

comprehensive analysis of the 1951 Convention and the 1967 Protocol on an article-by-article basis, exposing the interrelationship between the different articles and discussing the latest developments in international refugee law. In addition, several thematic contributions analyse questions of international refugee law which are of general significance, such as regional developments, the interrelationship between refugee law and general human rights law, as well as the relationship between refugee law and the law of the sea.

**Humanity at Sea** Itamar Mann, 2016-09-29 This book integrates legal, historical, and philosophical materials to illuminate the migration topic and to provide a novel theory of human rights.

**Weary Feet, Rested Souls: A Guided History of the Civil Rights Movement** Townsend Davis, 1999-02-17 Weary Feet, Rested Souls is a valuable and beautiful road map to a landscape we must not forget.—Marian Wright Edelman, president of the Children's Defense Fund Thirty years after the Civil Rights Movement transformed America, Weary Feet, Rested Souls brings the landscape of this compelling period of history back to life. Logging 30,000 miles of research and more than 100 hours of interviews with Civil Rights veterans, Townsend Davis has written both a history of the struggle and an indispensable traveler's guidebook to Civil Rights in the Deep South. Ranging from Martin Luther King, Jr.'s childhood neighborhood to Philadelphia, Mississippi, where three Civil Rights workers were murdered, to Selma and Birmingham and scores of other sites, Weary Feet, Rested Souls is a uniquely inspiring and deeply commemorative guide to the Movement and its heroes.

**Looking at Our School** Ireland. Department of Education and Science. Inspectorate. Evaluation Support and Research Unit, 2003-01-01

**The UNHCR and World Politics** Gil Loescher, 2001-05-25 Over fifty years ago governments established the Office of the United Nations High Commissioner for Refugees (UNHCR) to protect the world's refugees. The UNHCR was created to be a human rights and advocacy organization. But governments also created the agency to promote regional and international stability and to serve the interests of states. Consequently, the UNHCR has always trod a perilous path between its mandate to protect refugees and asylum seekers and the demands placed upon it by states to be a relevant actor in world politics. This is the first independent history of the UNHCR. Gil Loescher, one of the world's leading experts on refugee affairs, draws upon decades of personal experience and research to examine the origins and evolution of the UNHCR as well as to identify many of the major challenges facing the organization in the years ahead. A key focus is to examine the extent to which the evolution of the UNHCR has been framed by the crucial events of international politics during the past half century and how, in turn, the actions of the eight past High Commissioners have helped shape the course of world history. Each chapter tells the story of an individual High Commissioner and examines the unique contributions made to the development of the Office. The history of the last fifty years shows how the UNHCR has initiated and capitalized on international political

developments to progressively expand its scope and authority as an important actor in world politics. The book argues that the UNHCR has overstretched itself in recent decades and has strayed from its central human rights protection role. The protection of refugees remains a litmus test of the international community's commitment to defend human rights and to uphold liberal democratic values. Loescher offers a series of bold policy recommendations aimed at making the agency a more effective and accountable advocate for the millions of refugees in the world today.

First there's the embarrassing loss to her ex-girlfriend in their first basketball game of the season, and then she gets into a fender bender with the worst possible person: her head cheerleader nemesis, Irene Abraham. Irene is as mean as she is beautiful, and Scottie makes a point to keep her distance, only their little car accident means the girls are forced to ride together to school. Every day. But when an opportunity arises for Scottie to get back at her toxic ex - and climb her school's social ladder - she convinces Irene to take part in an elaborate fake-dating scheme that threatens to reveal some very real feelings. 'A must-read for every romcom fan' - Adiba Jaigirdar, author of *The Henna Wars*

*Leading and Managing Schools* Helen O'Sullivan,John West-Burnham,2011-04-11 School leadership and management are fundamental components of school improvement. This is the first study of its kind to relate the principles of effective leadership to the broad spectrum of school life in Ireland. A key resource for school leaders in their personal and professional study, this book critically appraises issues in leading and managing schools. The editors bring together an array of renowned scholars to inform and stimulate the debate on the future of leadership development in Irish schools. Each author explores different perspectives and sets a framework for rethinking school leadership and management and an agenda for future research. The book includes in-depth discussions of a broad spectrum of issues encountered by practitioners, such as: - justice and equality as cornerstones of any educational system and the challenges they pose for those in leadership positions; - principles of good governance; - the key positions of accountability and leadership of change. Inspiring and informative in its style, the authors bring together a range of perspectives on every aspect of school leadership and management, from well known contributors such as Michael Fullan, Ciaran Sugrue and Marty Linsky, creating a unique and rich canvas. Focusing on national and international perspectives this book adds to the growing canon of international studies of school leadership. With a unique Irish perspective on Leadership and Management, this book provides an authoritative reference point for practitioners, scholars and students of educational leadership and management, as well as for policy makers in Ireland. It is also extremely useful for practitioners, scholars and students nationally and internationally.

**Spike Timing** Patricia M. DiLorenzo,Jonathan D. Victor,2013-05-02 Neuronal communication forms the basis for all behavior, from the smallest movement to our grandest thought processes. Among the many mechanisms that support these functions, spike timing is among the most powerful and—until recently—perhaps the least studied. In the last two decades, however, the study of spike timing has exploded. The heightened interest is due to several factors. These include the development of physiological tools for measuring the activity of neural ensembles and analytical tools for assessing and characterizing spike timing. These advances are coupled with a growing appreciation of spike timing’s theoretical importance for the design principles of the brain. *Spike Timing: Mechanisms and Function* examines the function of spike timing in sensory, motor, and integrative processes, providing readers with a broad perspective on how spike timing is produced and used by the nervous system. It brings together the work and ideas of leaders in the field to address current thinking as well as future possibilities. The first section of the book describes the foundation for quantitative analysis and theory. It examines the information contained in spike timing, how it can be quantified, and how neural systems can extract it. The second section explores how input-output relationships are reflected in spike timing across a range of sensory systems. Drawing together multiple perspectives, including theoretical and computational studies as well as experimental studies in a range of model systems, the book provides a firm background for investigators to consider spike timing as it applies to their own work. It also offers a glimpse of future advances related to mechanisms of spike timing and its role in neural function, such as the development of novel computational technologies.
